Additional Services

As a team-based medical home, we provide additional services to make sure that you and your family receive comprehensive and well coordinated care.

Women, Infants and Children (WIC) program which provides supplemental foods, health care referrals, and nutrition education for low-income pregnant women and mothers with newborns, and for infants and children up to age five who are found to be at nutritional risk.

Health Insurance Enrollment counselors are available to help you enroll under the New York State of Health or governmental benefits including Medicaid, Child Health Plus (CHIP), Family Planning Benefit Program (FPBP), Family Planning Extension Program (FPEP) and Qualified Health Plans. For more information, call Health Connections at (718) 483-1260

Language Access Line at all sites to help translate for patients who speak languages that our staff does not speak

Patient Portal will give you online access to easily communicate with your provider, refill your medication, request appointments, request referrals, request test results, send message to your provider and view your medical summary.

Changing the Odds is a positive youth development program that provides youth with life skills and community service learning which positively impacts their academic success and overall health.

Discounts are available for some of the services we provide for those who qualify.
