**RECIPIENT OF MHHC FOUNDATION'S
HEALTHCARE LEADERSHIP AWARD**

As President and CEO of Montefiore Medical Center, it is my honor to accept the 2012 Health Care Leadership Award. I would like to extend my sincere gratitude to the governance and staff of Morris Heights Health Center and give special thanks to Verona Greenland and Dr. Yvette Walker, my longtime colleagues and dear friends.

Morris Heights is an inspirational community provider. From supporting youth in school-based health centers to securing housing for our most vulnerable elderly to achieving the integration of primary and behavioral care in the clinic, Morris Heights is responding dynamically and successfully to the needs of Bronx residents. Montefiore shares this vision of providing innovative care that transforms health and enriches lives in our borough. As true partners, I can only believe we will make a real difference in the lives of every Bronx resident who comes to us for care.

I would especially like to recognize the leadership of Verona Greenland. There is room in this world for more like Verona. Not only is she a true visionary who sees beyond what is to what should be, but she is uniquely able to mobilize people and resources in order to accomplish what seems impossible to most. It is a rare gift that has brought meaningful change to our region.

Over my thirty-year career as a physician and leader at Montefiore, I have always had utmost respect for Morris Heights as a model of truly excellent community-based and comprehensive health care. Today, I remain committed as ever to supporting this outstanding organization. Together, we are poised to be agents of real change: to reform a 20th century health system in order to tackle 21st century problems and ensure access to the highest quality of care for all.
